

POST TREATMENT INSTRUCTIONS

1. **ALTHOUGH MAN HAS BEEN VERY SUCCESSFUL AT ELIMINATING MANY OF THE PLANTS AND ANIMALS WE SHARE THIS EARTH WITH WE HAVE YET TO ELIMINATE ONE (1) SPECIES OF INSECT BECAUSE THEIR EGGS AND PUPA CASES ARE SO WELL PROTECTED. THEY HAVE THE ABILITY TO SURVIVE EXTREMES SUCH AS HEAT, COLD, DROUGHT AND FLOODS AND OF COURSE PESTICIDES. PESTICIDES HAVE A MAJOR IMPACT ON INSECTS AFTER THEY EMERGE OUT OF THE EGG OR PUPA CASE.**

INSECTS ALSO SPEND AS MUCH AS 80% OF THEIR LIFE IN THEIR NESTING OR BREEDING AREAS WHICH ARE USUALLY IN WALL OR IN VERY SECLUDED AND PROTECTED AREAS (LIKE INSIDE CRACKS AND CREVICES) WHICH WE SIMPLY CAN NOT GET INTO

YOU MUST ALLOW TWO (2) WEEKS FOR OUR MATERIAL TO HAVE AN IMPACT ON THE PEST(S) WE TREATED FOR.

GIVEN THE PROPER AMOUNT OF TIME FOR INSECTS TO MAKE CONTACT WITH OUR MATERIAL, WE WILL BRING ABOUT CONTROL. IF A RETREAT SERVICE IS REQUIRED PLEASE BE SPECIFIC AS TO THE AREA YOU ARE HAVING A PROBLEM. THAT REALLY HELPS US FOCUS OUR TIME TO THE EXACT TROUBLE AREA. RETREATMENTS WILL BE LIMITED TO ONLY THOSE AREAS WHERE AN ACTIVE INFESTATION EXISTS. WE DO NOT ROUTINELY RETREAT ENTIRE INTERIORS AND/OR EXTERIORS JUST FOR THE SAKE OF RETREATMENT. UNNECESSARY APPLICATIONS OF PESTICIDES ARE NOT GOOD FOR YOU, YOUR CHILDREN, YOUR PEST OR OUR TECHNICIANS.

SUNCREST EXTERMINATING IS GOING TO GREAT EXPENSE IN PURCHASING ONLY THE BEST MATERIALS AND EQUIPMENT AVAILABLE TO OUR INDUSTRY.

2. **DO NOT USE A DAMP CLOTH OR SPONGE INSIDE OF CABINETS FOR AT LEAST TWO (2) MONTHS AFTER TREATMENT.**
3. **ALL COUNTERTOPS SHOULD BE WASHED WITH SOAPY WATER IMMEDIATELY AFTER TREATMENT TO REMOVE ANY LIGHT MIST THAT MAY HAVE ACCIDENTALLY FALLEN ON THEM.**
4. **IF WE TREATED FLEAS~VACUUM TWO (2) DAYS AFTER TREATMENT TO SPEED UP THE PUPA CASE HATCHING PROCESS. VACUUM DAILY THEREAFTER FOR TWO (2) WEEKS.**

VACUUM LINOLEUM, TILE OR WOOD FLOORS DAILY.

DO NOT HAVE CARPETS STEAM CLEANED UNTIL AFTER TOTAL CONTROL HAS BEEN ACHIEVED.

DISPOSE OF VACUUM CLEANER BAGS AFTER EACH VACUUMING AS THE BAGS WILL BE INFESTED WITH FLEAS AND FLEA EGGS.

BATHE PET(S) WITH A FLEA SHAMPOO AT LEAST WEEKLY DURING FLEA SEASON (JUNE THROUGH NOVEMBER).

IN A SMALL CHILD'S ROOM YOU MAY WANT TO VACUUM MORE OFTEN TO AVOID ADDITIONAL CHEMICAL TREATMENTS.

SHOULD YOU HAVE QUESTIONS PLEASE CONTACT US AT (714) 632-3600
